OF THE UNITED STATES.

HOUSE OF REPRESENTATIVES,

Thursday, May 8.

MR. Speaker laid before the House a letter from the Treasurer of the United States, enclosing his accounts of the war and navy Departments, ending 31st March, 1800. Ordered to be printed.

The House went into committee of the whole on the bill making certain additional appropriations for the year 1800—Mr. Parker in the chair—when the resolution referred to this committee, making certain additional appropriations for fortifications, was agreed to, and a section for that purpose added to the bill. By this bill 3200 dollars are appropriated for defraying the expenses incurred by both Houses in doing honor to the memory of General Washington—to the Choctaw nation of Indians, 2000 dollars—for the reimbursement of monies advanced by consuls of the United States in defence of captured property of citizens of the United States in foreign countries, 5000 dollars—for courts of appeals in England, 44,000 dollars—for expenses of Indians visiting the seat of government, 7,500—for additional compensation to officers of both Houses, 1500—for expenses incident to the establishment of a general stamp-office, and salary of superintendent thereof, &c. 4000—for expenses incident to the establishment of the Indian territory, including salary of governor, judges, &c. thereof, 4000—for exploring copper mines on Lake Superior, 1500—and for fortifications 100,000 dollars.

Mr. H. Lee, from the select committee appointed to consider what measures it would be proper for Congress to adopt, for paying suitable respect to the memory of the Man first in Peace, first in War, and first in the hearts of his Countrymen—the deceased General Washington—made report, recommending the adoption of the following resolutions:

Resolved, That the resolution of Congress passed in the year 1783, respecting an Equestrian Statue of Gen. Washington, be carried into immediate execution; and that the statue be placed in the centre of an area, to be formed in the front of the capitol.

Resolved, That a marble monument be erected by the United States in the capitol at the city of Washington, in honor of Gen. Washington, to commemorate his services, and to express the regrets of the American people for their irreparable loss.

Resolved, That the President of the United States be requested to give such directions as may appear to him proper to carry the preceding Resolution into effect—and that for the present the sum of 100,000 dollars be appropriated for these purposes.

The resolutions were referred to a committee of the whole House, and immediately taken into consideration—Mr. Parker in the chair—when

Mr. Harper moved to amend the first resolution, by inserting, that a MAUSOLEUM be erected for General Washington, in the city of Washington—instead of the statue proposed—which was carried—the other resolutions were negative of course.

The Committee then rose, and the resolution as amended by Mr. Harper, was agreed to by the House, and a bill ordered to be brought in pursuant thereto.

Friday, May 9.

Mr. Evans brought in a bill, for erecting a Mausoleum for George Washington, in the city of Washington, which was committed to a committee of the whole House, and immediately taken into consideration, Mr. Rutledge in the chair, when a motion was made to amend the bill, by fixing the base of the tomb at 60 feet, instead of 100, as was proposed by the bill, which was negative. The sum of 70,000 dollars was then voted for the purpose. The committee rose, the House concurred, and the bill was ordered to be read a third time.

The bill regulating grants of land appropriated for the refugees from the British provinces of Canada and Nova-Scotia, was completed, read a third time and passed.

Saturday, May 10.

The House went into committee of the whole on the bill from the Senate supplementary to the act establishing the Mint, regulating the coins of the United States.

The object of this bill, which is to authorize the Secretary of the Treasury to contract with the bank of the United States for the disposal of the right of coinage for ten years, was objected to by Mr. Gallatin, who wished the bill to be postponed till next session—or that the coinage should be discontinued, and the implements sold, and not that it should be placed in the power of the bank.

Mr. C. Goodrich said, that some arrangement ought to be made on this subject. By the existing law the mint was to be removed to the seat of government, at the city of Washington—and observed that it was highly questionable whether the removal would not conduce to the destruction of the institution—the project of the Senate therefore, appeared to him the best way to adopt—it would remove from the charge and expense attending the removal, at the same time that it would afford a station more profit to the bank—who at first, would incur very great expense, as the dies were extremely defective, and new ones would be forced to be procured.

Mr. Gallatin moved to strike out the twelve sections of the bill, and insert that the mint shall be continued at Philadelphia until 4th March, 1801.

This would leave it in the power of Congress to take the subject into mature consideration next session.

The motion was carried—ayes 40, noes 31—the committee rose, and the house concurred.

The bill was then ordered to be read a third time; and having received its third reading, was passed as amended.

A message from the Senate afterwards informed the house, that they disagree to this amendment.

A message from the Senate informed the House, that they have resolved that the bills for the sale of certain lands, between the Great and Little Miami Rivers, be postponed till the next session of Congress.

Adjourned.

Monday, May 12.

A message was received from the Senate by Mr. Otis, their secretary, informing the House, that the Senate have resolved that the bill to incorporate a company for the manufacture of sheet copper within the United States, do not pass.

Also, that the Senate concur in the resolution relative to the adjournment of both Houses, with an amendment.

The amendment of the Senate, which proposed that both Houses should adjourn on Wednesday—was taken into consideration—and after some debate, was agreed to—ayes 40, noes 24.

Tuesday, May 13.

A message was received from the Senate, by Mr. Otis their secretary, informing the house, that the Senate have considered the bill making further provision for relief of persons imprisoned for debts due the United States, and have resolved that the same be postponed till next session of Congress.

On motion of Mr. Sewall, the house adjourned till to-morrow morning, 9 o'clock.

Little business was transacted this day.

Wednesday, May 14.

A message was received from the Senate, by Mr. Otis their secretary, informing the House, that the Senate have resolved that the resolution for repealing two of the laws passed by the governor and judges of the Mississippi territory be postponed till next session of Congress—and that the Senate concur in the amendments of this house to the bill supplementary to the act to augment the army of the United States.

The amendments being taken into consideration, the first, which was to fix the day of disbanding the army on or before the 15th of June next, was concurred in.

The second amendment, which was to insert a proviso, that nothing in the act contained should be construed to authorize a reduction of the first four regiments of infantry, two regiments of engineers, and two companies of light dragoons, or of the general and other officers of the staff, appertaining thereto, was also agreed to.

The third amendment was to allow three months additional pay, instead of two, as proposed by this house—which was carried ayes 35.

HOUSE OF REPRESENTATIVES,

Thursday, May 8.

MR. Speaker laid before the House a letter from the Treasurer of the United States, enclosing his accounts of the war and navy Departments, ending 31st March, 1800. Ordered to be printed.

The House went into committee of the whole on the bill making certain additional appropriations for the year 1800.—Mr. Parker in the chair.—when the resolution referred to this committee, making certain additional appropriations for fortifications, was agreed to, and a section for that purpose added to the bill. By this bill 3200 dollars are appropriated for defraying the expenses incurred by both Houses in doing honor to the memory of General Washington—to the Choctaw nation of Indians, 2000 dollars—for the reimbursement of monies advanced by consuls of the United States in defence of captured property of citizens of the United States in foreign countries, 5000 dollars—for courts of appeals in England, 44,000 dollars—for expenses of Indians visiting the seat of government, 7,500—for additional compensation to officers of both Houses, 1500—for expenses incident to the establishment of a general stamp-office, and salary of superintendant thereof, &c. 4000—for expenses incident to the establishment of the Indian territory, including salary of governor, judges, &c. thereof, 4000—for exploring copper mines on Lake Superior, 1500—and for fortifications 100,000 dollars.

Mr. H. Lee, from the select committee appointed to consider what measures it would be proper for Congress to adopt, for paying suitable respect to the memory of the Man first in Peace, first in War, and first in the hearts of his Countrymen—the deceased General Washington—made report, recommending the adoption of the following resolutions:

Resolved, That the resolution of Congress passed in the year 1783, respecting an Equestrian Statue of Gen. Washington, be carried into immediate execution; and that the statue be placed in the centre of an area, to be formed in the front of the capitol.

Resolved, That a marble monument be erected by the United States in the capitol at the city of Washington, in honor of Gen. Washington, to commemorate his services, and to express the regrets of the American people for their irreparable loss.

Resolved, That the President of the United States be requested to give such directions as may appear to him proper to carry the preceding Resolution into effect—and that for the present the sum of 100,000 dollars be appropriated for these purposes.

The resolutions were referred to a committee of the whole House, and immediately taken into consideration.—Mr. Parker in the chair.—when

Mr. Harper moved to amend the first resolution, by inserting, that a MAUSOLEUM be erected for General Washington, in the city of Washington—instead of the statue proposed—which was carried—the other resolutions were negatived of course.

The Committee then rose, and the resolution as amended by Mr. Harper, was agreed to by the House, and a bill ordered to be brought in pursuant thereto.

Friday, May 9.

Mr. Evans brought in a bill, for erecting a Mausoleum for George Washington, in the city of Washington, which was committed to a committee of the whole House, and immediately taken into consideration, Mr. Rutledge in the chair, when a motion was made to amend the bill, by fixing the base of the tomb at 60 feet, instead of 100, as was proposed by the bill, which was negatived. The sum of 70,000 dollars was then voted for the purpose. The committee rose, the House concurred, and the bill was ordered to be read a third time.

The bill regulating grants of land appropriated for the refugees from the British provinces of Canada and Nova-Scotia, was completed, read a third time and passed.

Saturday, May 10.

The House went into committee of the whole on the bill from the Senate supplementary to the act establishing the Mint, regulating the coins of the United States.

The object of this bill, which is to authorize the Secretary of the Treasury to contract with the bank of the United States for the disposal of the right of coinage for ten years, was objected to by Mr. Gallatin, who wished the bill to be postponed till next session—or that the coinage should be discontinued, and the implements sold, and not that it should be placed in the power of the bank.

Mr. C. Goodrich said, that some arrangement ought to be made on this subject.—By the existing law the mint was to be removed to the seat of government, at the city of Washington—and observed that it was highly questionable whether the removal would not conduce to the destruction of the institution—the project of the Senate, therefore, appeared to him the best we could adopt—it would relieve us from the coinage and expence attending the business—at the same time that it would afford a reasonable profit to the bank—who at first, would incur very great expence, as the dies were extremely defective, and new ones would be forced to be procured.

Mr. Gallatin moved to strike out the twelve sections of the bill, and insert that the mint shall be continued at Philadelphia until 4th March, 1801.

This would leave it in the power of Congress to take the subject into mature consideration next session.

The motion was carried—ayes 40, noes 31—the committee rose, and the house concurred.

The bill was then ordered to be read a third time; and having received its third reading, was passed as amended.

A message from the Senate afterwards informed the house, that they disagree to this amendment.

A message from the Senate informed the House, that they have resolved that the bills for the sale of certain lands, between the Great and Little Miami Rivers, be postponed till the next session of Congress.

Adjourned.

Monday, May 12.

A message was received from the Senate by Mr. Otis, their secretary, informing the House, that the Senate have resolved that the bill to incorporate a company for the manufacture of sheet copper within the United States, do not pass.

Also, that the Senate concur in the resolution relative to the adjournment of both Houses, with an amendment.

The amendment of the Senate, which proposed that both Houses should adjourn on Wednesday—was taken into consideration—and after some debate, was agreed to—ayes 40, noes 24.

Tuesday, May 13.

A message was received from the Senate, by Mr. Otis their secretary, informing the house, that the Senate have considered the bill making further provision for relief of persons imprisoned for debts due the United States, and have resolved that the same be postponed till next session of Congress.

On motion of Mr. Sewall, the house adjourned till to-morrow morning, 9 o'clock.

Little business was transacted this day.

Wednesday, May 14.

A message was received from the Senate, by Mr. Otis their secretary, informing the House, that the Senate have resolved that the resolution for repealing two of the laws passed by the governor and judges of the Mississippi territory be postponed till next session of Congress—and that the Senate concur in the amendments of this house to the bill supplementary to the act to augment the army of the United States.

The amendments being taken into consideration, the first, which was to fix the day of disbanding the army on or before the 15th of June next, was concurred in.

The second amendment, which was to insert a proviso, that nothing in the act contained should be construed to authorize a reduction of the first four regiments of infantry, two regiments of engineers, and two companies of light dragoons, or of the general and other officers of the staff, appertaining thereto, was also agreed to.

The third amendment was to allow three months additional pay, instead of two, as proposed by this house—which was carried ayes 35.

A message from the Senate informed the House, that they have chosen the hon. Uriah Tracy, President of the Senate pro tem. in the absence of the Vice-President.

The Senate informed the House that they have resolved that the bill to permit, in certain cases, the bringing of slaves into the Mississippi territory, do not pass; and that they have postponed the following bills till the next session of Congress, viz. An act to revive and continue in force an act intitled an act for establishing trading houses with the Indian tribes; and the bill intitled An act in addition to the act for granting land to the inhabitants and settlers at Vincennes and the Illinois country, in the territory N. W. of the Ohio, and for confirming them in their possessions.

No further business appearing before the House, on motion of Mr. Goodrich, a resolution for the appointment of a joint committee to wait on the President, and inform him of the proposed recess, was adopted; and was concurred in by the Senate.

Mr. C. Goodrich from the joint committee, reported, that they had performed that service, and that the President informed them he had no other communication to make, except his good wishes for their health and happiness, and that he wished them a pleasant journey to their respective homes.

A message having been sent to the Senate, to inform them this house was ready to adjourn, after a few minutes, a motion was made for that purpose, and carried, when

Mr. Speaker, after taking an affectionate farewell of the members, and expressing his wish for their safe return, and happiness during the recess, adjourned the house till the third Monday in November next.

NEW-YORK, May 21.

The brig Trio arrived at this port yesterday in 47 days from Greenock. She brings Glasgow papers to the 29th March, and London to the 26th, a file of which is received at the Office of the Mercantile Advertiser. No political event of moment had taken place in Europe at the date of our last accounts.

On the 21st March, the report of a Committee of the Irish House of Commons on the Union was brought up, and the resolutions agreed to without a division.

Private letters from Germany, as well as public accounts, all agree in representing the answer given by the Court of Vienna to the overtures of Buonaparte as conformable in every respect to that which was returned by the British ministry.—It appears that on the same day on which a separate peace was proposed to the King of England, a similar proposal was made to the Emperor of Germany. Both have been rejected and on the same pretences.

The Turks have listened to the proposals made by Gen. Kleber to the Grand Vizier. The French army offer to evacuate Egypt; the Vizier has consented that they shall be permitted to do so without molestation; and Sir Sidney Smith became a party to the Convention. It is imagined in London that this stipulation will not be approved by the Russians; that it is doubtful whether Lord Elgin, the English Ambassador at the Court of the Sultan, will confirm it; and that probably Lord Keith, who commands in the Mediterranean, may think it consistent with his duty or his orders to resist its execution.

The principal articles of Foreign Intelligence brought by the Trio are as follow:

LONDON, March 25.

Buonaparte proposes to conduct the affairs of the Republic from his camp, the same as if he were at Paris; being unwilling to delegate any part of his authority to another person. It is understood that Carnot will conduct the war department in the absence of Berthier.

March 26.

Rumour states, that fresh overtures have been made to the Court of Vienna by Buonaparte, and we are even told, that the British Government are in expectation of another Courier from Paris.

The combined French and Spanish fleets remained snug in Brest harbour on Thursday last.

The first remittance of the subsidy to the Emperor was made by the Hamburgh mail of last night. The arrangements between the courts of London and Vienna are completed.

The vigour of the warlike preparations making in the imperial hereditary dominion exceeds every thing hitherto known.—Hungary has offered 26,000 recruits, and in case of need, as many cavalry.

Lord Minto has received a Courier from Palermo, stating the capture of a French frigate from Alexandria for Toulon, with 14 French Officers from the army in Egypt, and a Memorial from the army signed by all the Officers to the French Directory, representing the wretched situation in which Buonaparte had left them.

TREATY BETWEEN RUSSIA AND SWEDEN.

Extract of the Treaty of Friendship and Union, between the King of Sweden on the one part, and the Emperor of all the Russias on the other part, concluded at Gatchina, on the 27th of October, 1799; ratified at Stockholm on the 30th of November, and at Gatchina on the 15th of December, in the same year.

I. The two Contracting Parties guarantee mutually to each other all their States, Countries and Provinces in Europe.

II. Their Majesties the King of Sweden, and the Emperor of all the Russias, shall

maintain the most intimate correspondence, and advise each other promptly and fully of any exterior injury or trouble which the States, &c. of either of the Contracting Parties may be menaced, and shall employ in time the most efficacious measures either to prevent them, or to repair the consequences.

III. If, contrary to all expectation, it should happen that one of the Contracting Parties should be attacked in his European provinces, the other, as soon as it shall have been required, shall employ his good offices to put an end to hostilities. In case the representations should not succeed, there shall be furnished, on demand, a stipulated number of troops, as follows, viz. His Swedish Majesty shall furnish 8000 Infantry and 2000 Cavalry, or Dragoons, at the choice of the party called upon; six sail of the line, from 60 to 70 guns, and two frigates of 30 guns each. On the part of His Majesty the Emperor of all the Russias, there shall be furnished to his Ally 12000 Infantry and 4000 Cavalry, or Dragoons, at the convenience of the party called upon, nine vessels of the line, from 60 to 70 guns, and three frigates, of 30 guns each.

IV. If the succours stipulated by the present Treaty should not be found sufficient for the defence of that one of the Contracting Parties which shall be attacked, the other, after a previous agreement, shall assist with a greater number of vessels, if permitted so to do by his own situation.

V. This Alliance to be in force for eight years.

TREATY BETWEEN RUSSIA AND PORTUGAL.

The treaty of defensive alliance between Russia and Portugal was signed at Petersburg, the 21st of September, 1799. The two contracting powers mutually guarantee each others possessions; they declare that their object is not to do wrong to any power, but to contribute to their mutual benefit and security, and to the re-establishment of peace in Europe. It is stipulated that on the requisition of either of the two powers attacked in their possessions, Russia is at first to furnish 6000 infantry; and that Portugal, on the other hand, is to furnish to Russia a squadron of six ships of war, five from 64 to 74, and a frigate of 32 or 40. The aid may be furnished in money at the option of the party requiring. The auxiliary squadron of Portugal shall always be employed conjointly with the Russian squadron, or with those of their ally the King of Great-Britain. If the aids to be furnished by this treaty are not sufficient, the contracting parties may agree upon farther assistance.—The party requiring shall not make peace or truce with the common enemy, without including the other.

PORTSMOUTH, March 21.

Sailed the Calcutta, Dover, and Ulysses, men of war, with 2000 of the guards for Ireland.

DELAWARE, March 21.

A sudden order has been received here to stop the embarkation of the troops until further orders. The 17th regiment were to have embarked this morning, had they not received counter-orders. The 40th have received similar orders. It is said the troops will be disembarked.

WILMINGTON, May 10.

A Mr. Lawrence Alwine, of Philadelphia, has obtained a patent, for a discovery he has made in the preparation of Paints—by which they can be used with much less labour than common, and will more effectually preserve every thing to which they are applied.

By this discovery, the paints are rendered more brilliant and durable than common; they can be laid on in any kind of weather, wet or dry, and different coats may be laid on every hour successively, not requiring a longer time to dry.—Another advantage, of more consequence than all the rest, is that this preparation divests the paint of that noxious quality which affects the nervous system of those who work among it in the common way.

PHILADELPHIA, May 16.

APPOINTMENTS.—BY AUTHORITY. John Marshall, Esq. of Virginia, Secretary of State, in the place of Timothy Pickens, Esq; removed.

Samuel Dexter, Esq. of Massachusetts, Secretary of the Departments of War, in the place of John Marshall, Esq; promoted to the Office of State.

Iracl Whelen, Esq. of Pennsylvania, Purveyor of public supplies for the United States, in the place of Tench Francis, Esq. deceased.

William Henry Harrison, Esq. delegate to Congress from the N. W. Territory, to be Governor of the Indiana Territory.

Gen. John Gibson, of Pennsylvania, Secretary of the Indiana Territory.

Seth Lewis, Esq; of Tennessee, Chief

A message from the Senate informed the House, that they have chosen the hon. Uriah Tracy, President of the Senate pro tem. in the absence of the Vice-President.

The Senate informed the House that they have resolved that the bill to permit, in certain cases, the bringing of slaves into the Mississippi territory, do not pass; and that they have postponed the following bills 'till the next session of Congress, viz. An act to revive and continue in force an act intitled an act for establishing trading houses with the Indian tribes; and the bill intitled An act in addition to the act for granting land to the inhabitants and settlers at Vincennes and the Illinois country, in the territory N. W. of the Ohio, and for confirming them in their possessions.

No further business appearing before the House, on motion of Mr. Goodrich, a resolution for the appointment of a joint committee to wait on the President, and inform him of the proposed recess, was adopted; and was concurred in by the Senate.

Mr. C. Goodrich from the joint committee, reported, that they had performed that service, and that the President informed them he had no other communication to make, except his good wishes for their health and happiness, and that he wished them a pleasant journey to their respective homes.

A message having been sent to the Senate, to inform them this house was ready to adjourn, after a few minutes, a motion was made for that purpose, and carried, when

Mr. Speaker, after taking an affectionate farewell of the members, and expressing his wish for their safe return, and happiness during the recess, adjourned the house till the third Monday in November next.

"Every kind of business at this place is at
an entire stand, the houses and stores are all
shut up, and the people under arms out of
town; this is in consequence of a misunder-
standing between Gen. Toussaint and the
agent from France. Toussaint is at pre-
sent absent, having lately taken Jacquemal
from Rigaud, where almost every person was
put to death."

Extract of a letter from a gentleman at the
Havana, to a respectable commercial
house in this city, dated the 2d of May,
1800.

"The brig Calliope is condemned at
New-Providence. This day a Spanish brig
of 20 guns brought in two New-Providence
privateers (one commanded by Davis an
American) they attacked her as she lay at
anchor in a port to leeward of this, and were
both obliged to strike to her: they had on
board 200,000 dollars in specie, which had
been taken from different American vessels."

Wickham, 19 days from Cape Francois.

The frigate General Greene, failed from
the Cape the 27th April, said for St. Jago
de Cuba; the sloop of war Herald remained
at the Cape.

Also arrived schooner Caroline, Captain
Benion, 22 days from Port Republic—
failed in company with a number of Amer-
ican vessels, under convoy of the United
States ship Trumbull, Capt. Jewett, who
had taken, the day before we failed, a prize
schooner of 6 guns, with 70,000 weight of
coffee, from Port Republic, bound to
Bordeaux.

Extract of a letter from Cape-Francois,
dated 27th April, to a gentleman in Phi-
ladelphia.

"The brig James Stuart has arrived here
in twelve days from your port, and is just
joining the convoy for Port Republic.—
Tranquillity is at an end here. Ten thou-
sand negroes have been in a state of revolt
for these three weeks past, back of this place,
and the consequences are much dreaded,
and as for the Bite, there is no passing with-
out convoy."

MICHAEL MURPHY, Esq; Consul of the
United States, at Malaga.

SIR—I have to inform you that on the
3th was sent into this port by an Algerine
Corfair, the American brig Bobba-Cedi,
Thos. CLIFTON, master, with a cargo of

wine from Valencia for Philadelphia—said
brig had a Turkish Pass granted by the late
Dey for one year, and on examining said
Pass, it was found to be out of date one
year and ten months—therefore the Régen-
cy condemned said cargo as legal prize to
the captors. The crew, 5 in number (be-
ing foreigners and subjects of nations at war
with Algiers) were made slaves of—the
brig and master is cleared. On the 15th
inst. the Regency gave up these five cap-
tives, as a particular favour to the United
States.—All American vessels should have
the Mediterranean-Pass, real American col-
ours, and two-thirds of their crew should
be citizens of the United States—as it is
supposed that sundry American vessels have
Algerine Turkish Passes, this is to inform
them, that said Passes are out of date—that
they will not be respected by the present
Dey of Algiers; and if they have not the
American Mediterranean Pass, their Car-
goes will be condemned.

I am, with sincere regard, your most obe-
dient servant,

RICHARD O'BRIEN.

It seems that the Tunisians have been
obliged, by the influence of the allied Pow-
ers, to make a truce with Portugal for 3
years, and with Naples as long as the pre-
sent war shall last. This measure destroys
the most valuable part of the revenues of
Tunis—one hundred sail of privateers (with
their crews, bred to piracy) are out of em-
ploy; and as the United States Government
has been very tardy in fulfilling their treaty-
stipulations with the Barbary States, they
may be inclined to make this a pretence for
capturing Americans. Another considera-
tion—by their truce with Portugal, they
have the whole and free range of the West-
ern Ocean.—The Americans should be
guarded; we should have a fleet of cruisers,
in these seas, without loss of time—the
world is verging on rapidly, to a state of
piracy! The Algerines, in the course of
two months, have taken 8 sail of Imperial
vessels; they are condemned, and the crews
are in slavery; they have also taken seven
sail of Neapolitans, and four Maltese, with
English colours and Admiral Nelson Passes.
Algiers will not in my opinion make a truce
with those two powers, except they first
bring a powerful Fleet into the Bay of Al-
giers, which will be sufficiently adequate to
dictate terms to the potent Dey—the Scar-
crow of the Christians!—The Dey's
brig Bashaw, taken and carried into Cadiz
by the French, in company with the Span-
iards, has been demanded by the Dey, with
her crew, damages, &c. threatening in case
of refusal, a declaration of war, and chain-
ing of their Consuls.

Excuse haste—from your's assuredly,
RICHARD O'BRIEN.

B O S T O N, May 20.

Sunday last arrived U. S. Brig Pickering,
Lt. Hillar, commander, from St. Thomas
and a cruise. She visited the Fort and the
town. About 70 vessels failed under her
convoy—most of which have reached their
ports of destination. We understand that
since leaving the United States, this fine
vessel, under the direction of her spirited and
vigilant commander, has captured two
French Privateers, one letter of marque,
and retaken 10 vessels. Thus having in-
finitely more than compensated the Govern-
ment, for the expenses of her building,
equipment and maintenance. One of the
French Prize Privateers was parted with 6
days since bound to this port.

On Monday last, the new Patent Engine,
(mentioned in the Centinel some time since)
was worked in Market-square, in presence,
and to the satisfaction of a large concourse
of spectators.—It is called a Cataract,
and very properly, for it throws three hun-
dred gallons of water a minute.

We are told, that a Philosophical appa-
ratus, a present from a gentleman of emi-
nence in Great-Britain, to the University
at Cambridge, has been received in the Gal-

We were last evening favored with Nea-
politan Gazettes to March 1. They con-
firm the intelligence of the capture of the
French ship Generaux, of 80 guns, and a
frigate, by the English. They had provisions
and 1 men on board for the relief of Malta.—
The English Squadron which captured these
vessels, was left in pursuit of others.

Extract of a letter from an officer on board
the Frigate General Greene, Capt. Perry, to
a gentleman in this town dated Cape-Fran-
cois, April 14.

"On our leaving this place in January
last, we were ordered by Commodore Talbot
to make a cruise round Hispaniola, from
which we returned but a few days since;
not that it would have required half that
time to have performed the route, but for

the purpose of aiding General Toussaint in
the capture of Jacmel. We cruized off that
port a considerable time, to intercept sup-
plies for Rigaud. This had the desired
effect. Jacmel, closely beleagued on the land
side by Toussaint's army, and blockaded by
the General Greene, was reduced to a state
of starvation. As a last effort, they made a
desperate sally in the night, with intention
to force Toussaint's lines, but failed in the
attempt, and the whole garrison, consisting
of more than 5000 men, fell into the hands
of Toussaint. The capture of Jacmel is of
infinite consequence to Toussaint, and of
high importance to the commerce of the
United States to this island, as in the gen-
eral opinion it will much facilitate the entire
reduction of Rigaud's power. It is impossi-
ble for me to describe to you the manner in
which Toussaint expressed his gratitude to
Capt. Perry on the occasion. We engaged
three of Rigaud's forts warmly for 30 or 40
minutes; in which time we obliged the
enemy to evacuate the town and two of the
forts, and repair to their strongest hold;
this fort however soon hauled down its
colours. We had got our boats out ready
to take possession of the place, and a number
of Rigaud's cruising vessels and barges in
the harbour, when a large ship hove in sight,
which from her appearance Capt. Perry and
his officers judged to be a French frigate;
it was thereupon thought prudent to relin-
quish the enterprise, and go in pursuit of her;
but on speaking her, found she was indeed
a French built ship, but then in possession
of the British, and cruising in their service.
The damage we received was very incon-
siderable; a few shot in our sides, and some
of our rigging cut away. The enemy had
several men killed and wounded."

On Sunday last arrived here the Hon.
CHRISTOPHER CRANT CHAMPLIN, one of
the Representatives of this State in Con-

BROWN, of the House of Representatives,
have also passed this Place, on their Return

we learn, that the Federal Candidates pro-

Vice-President, are

CHARLES COTESWORTH PINCKNEY,
as VICE-PRESIDENT.

Last Tuesday arrived at Boston, the Ship
Franklin, Capt. Devereaux, in 123 Days
from Batavia.

The Regiments to be disbanded, by the
late Resolutions of Congress, are the 5th,
6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th,
14th, 15th, and 16th.—The permanent
Army Establishment will then consist of
One Regiment of Cavalry, commanded by
Col. Watts; Two Regiments of Artillerists
and Engineers, commanded by Col. Bur-
beck; and Four Regiments of Infantry,
commanded by Cols. Hamtramck, Strong,
Gaither, and Butler.

On the 8th February, a FUNERAL ORA-
TION, on GENERAL WASHINGTON, was
delivered in the Temple of Mars, at Paris,
by Louis Fontanes.—The following is
an Extract therefrom:

"WASHINGTON had not those high
and commanding Traits, which strike every
Mind:—he displayed more Order and Jus-
tice, than Force and Elevation in his Ideas.
—He possessed, above all, in a superior
Degree, that Quality, which some call vul-
gar, but which very few possess:—That
Quality, not less useful to the Government
of States, than to the Conduct of Life;
and which gives more Tranquillity than
Emotion to the Soul, and more Happiness
than Glory, to those who possess it:—It is
that of good Sense that I speak.
Audacity destroys—Genius elevates—good
Sense preserves and perfects.—Genius is
charged with the Glory of Empires; but
good Sense alone, assures their Safety and
Repose."

"The Royal Society (says a late Lon-
don Paper) last Week, voted Thanks to
Mr. Perkins, Proprietor of the Metallic
Tractors, for some Experiments he sent
them, which have determined the Question
that the Tractors do really have a salutary
Action in Diseases, contrary to the Sugges-
tions of some, who ascribe their Effects to
Imagination. These Experiments were
chiefly on Infants, epileptic Fits, and
Horses;—to each of which, the Tractors
were found to give Relief, as in rheumatism
and other topical Complaints. The pre-
minent of the Faculty, we may add, are

now adopting them. Among others, Dr.
Mather, one of the Members of our Royal
College of Physicians, has just published his
Conviction of their Efficacy, refuting, he
says, "from Experience, and attentive Ob-
servation;" and that he considers it his
Duty, to adopt them in his Practice."

The General Greene Frigate, Capt. Per-
ry, has re-captured one of Toussaint's Vel-
fels, which had been taken by Rigaud's
Boats, and has delivered her to the black
General.

She has also re-captured an American
Schooner, and sent her into New-York.

Imagination. These Experiments were
chiefly on Infants, epileptic Fits, and
Horses;—to each of which, the Tractors
were found to give Relief, as in rheumatic
and other topical Complaints. The most
eminent of the Faculty, we may add, are

now adopting them. Among others Dr.
Mather, one of the Members of our Royal
College of Physicians, has just published his
Conviction of their Efficacy, resulting, he
says, "from Experience, and attentive Ob-
servation;" and that he considers it his
Duty, to adopt them in his Practice."

OLD TIMES AND NEW.

WHEN I was a youngster, our women were prudent,
Our spinners demure, and our matrons sedate,
In Academy's school, every wife was a student,
And seldom contentions arose, or debate—
By her chimney side, sat the good thrifty bride,
At her rock, at her reel, at her books of the market,
Then the family board real joys could afford,
And pleas'd the fond husband, sat by to remark it—
Then we laugh'd away, quaff'd away,
Age threw his staff away,
Health, ruddy health, on each countenance shone,
Our girls of their beauty,
Thought less than their duty,
And fathers were certain, those girls were their own.

Your quality misses, how diff'rent we find them,
If Vice was the fashion, they'd all be profane;
And your quality wives, not a whit are behind them—
No pow'r can, their profligate humours, restrain.
From assemblies to balls, folly beckons and calls,
Hark! her summons, and see how they pant to obey it,
While no longer uxorious, their husbands notorious,
Gods! it drives a plain man nearly mad to survey it.
Dash away, splash away,
Squander their cash away,
Visiting twenty score friends of a night;
With their harps, pipes and tabors,
Distracting their neighbours,
Common sense stands confounded, and reason takes flight.

The Weather having proved unfavourable, on the 11th Inst. (the Period appointed for the Sale of the following Estate)—It is now postponed to WEDNESDAY, 18th June next, when it will be SOLD at PUBLIC AUCTION, at 11 o'clock, on the Premises (If not previously disposed of at Private Sale)

THE Large, and very convenient MAN-SION-HOUSE, and LOT of Land, situated on the Point, late the Property of JACOB R. RIVERA, deceased.—The House consists of Six Rooms on a Floor, with a large Shop in Front, and a spacious Entry; and on the Lot is a Well of excellent Water, a Cistern, and Stable—the Lot measures 50 Feet Front, extending from the Street down to the Salt-Water, with sufficient Room to build a convenient Wharf.

Also to be sold, at the same Time, a large handsome GARDEN, about 12 Rods from the Mansion-House, and directly opposite Mr. Barton's, measuring 100 Feet Front and Rear, and the same in Depth, being a most eligible Spot for building.—The Terms and Condition of Payment will be made known at the Time of Sale.

PATENT PERPETUAL LOG.

The Public are respectfully informed, that a Machine for ascertaining to Exactness, a Vessel's Way at Sea, has been invented by CHESTER GOULD, and the Patent Right secured.—The Superiority of this Machine in Point of mathematical Certainty to the common Log, renders this Invention of the utmost Importance to the World—said Machine hath undergone many successful Experiments, and is now exhibited to the Public for Sale.
Gentlemen who wish to see or purchase said Log, will please to call at the Store of WILLIAM R. WILDER, in Thames-street, where every Information will be given.
Newport, April 7, 1800.

THE PUBLIC

Are respectfully informed, that having made a Trial of GOULD'S PATENT SEA LOG, on our Voyage from America to Europe; and by paying strict Attention to the same, found the Principle on which the Machine is constructed to be just, and accurate in its Measurement; but ours being the first that ever went to Sea, and owing to the Badness of the fodering, the fly Wheel failed.
Yet this cannot be considered as any Objection to the Utility of the Machine. I have examined the Machine on its present Construction, and from the Improvements that have been made, agreeably to what was suggested to the Proprietors, can give it candidly as my Opinion, that it is capable of meeting every Circumstance at Sea, Currents excepted, and give the true Distance sailed, and contribute greatly to the Ease and Accuracy of keeping a Ship's Reckoning. (Signed) JOHN GALVEN, Sailing Master of the United States Frigate.
The Masters and Owners of Vessels are respectfully informed, that Gould's Patent perpetual Sea Log, is now offered by W. R. WILDER, at his Book-store, Thames-street, Newport.
Who has constantly for Sale, a general Assortment of Seamen's Books, Charts, Scales and Dividers, &c. with almost every Article in the Stationary Line.
Newport, May 5, 1800.

PATENT PERPETUAL LOG. The Public are respectfully informed, that a Machine for ascertaining to Exactness, a Vessel's Way at Sea, has been invented by CHESTER GOULD, and the Patent Right secured.—The Superiority of this Machine in Point of mathematical Certainty to the common Log, renders this Invention of the utmost Importance to the World—said Machine hath undergone many successful Experiments, and is now exhibited to the Public for Sale. Gentlemen who wish to see or purchase said Log, will please to call at the Store of WILLIAM R. WILDER, in Thames-street, where every Information will be given. Newport, April 7, 1800.

THE PUBLIC Are respectfully informed, that having made a Trial of GOULD'S PATENT SEA LOG, on our Voyage from America to Europe; and by paying strict Attention to the same, found the Principle on which the Machine is constructed to be just, and accurate in its Measurement; but ours being the first that ever went to Sea, and owing to the Badness of the fodering, the fly Wheel failed. Yet this cannot be considered as any Objection to the Utility of the Machine. I have examined the Machine on its present Construction, and from the Improvements that have been made, agreeably to what was suggested to the Proprietors, can give it candidly as my Opinion, that it is capable of meeting every Circumstance at Sea, Currents excepted, and give the true Distance sailed, and contribute greatly to the Ease and Accuracy of keeping a Ship's Reckoning. (Signed) JOHN GALVEN, Sailing Master of the United States Frigate. The Masters and Owners of Vessels are respectfully informed, that Gould's Patent perpetual Sea Log, is now offered by W. R. WILDER, at his Book-store, Thames-street, Newport. Who has constantly for Sale, a general Assortment of Seamen's Books, Charts, Scales and Dividers, &c. with almost every Article in the Stationary Line. Newport, May 5, 1800.
